COOKIES POLICY

WHAT ARE COOKIES? Cookies are small text files sent from the site to the user's terminal (usually to the browser), where they are stored and then sent back to the site the next time the user visits the site. A cookie cannot retrieve any other data from the user's hard disk or transmit computer viruses or acquire email addresses. Each cookie is unique to the user's web browser. Some of the functions of cookies may be delegated to other technologies. In this document, the term 'cookies(s)' is used to refer both to cookies themselves and to all similar technologies.

By means of cookies it is possible to record information relating to your preferences, such as the pages you browse or download files from our site or other similar actions carried out while browsing our site.

FIRST or THIRD-PARTY COOKIES Cookies may be first or third party cookies, where "first party" means cookies developed by the Site Owner, while "third party" means cookies developed by third parties with respect to the Site Owner.

NATURE OF COOKIES With regard to the nature of cookies, there are several types:

Technical cookies Technical cookies are those used for the sole purpose of "carrying out the transmission of a communication over an electronic communication network, or to the extent strictly necessary for the provider of an information society service explicitly requested by the subscriber or user to provide such service" (see art. 122, paragraph 1, of the Code).

They are not used for any other purpose and are normally installed directly by the owner or operator of the website. They can be divided into:

- navigation or session cookies, which guarantee the normal navigation and use of the website (allowing, for example, to make a purchase or authenticate to access reserved areas); they are in fact necessary for the proper functioning of the site;
- Analytics cookies, similar to technical cookies when used directly by the site operator to collect information, in aggregate form, on the number of users and how they visit the site itself, in order to improve the performance of the site;
- functionality cookies, which allow the user to navigate according to a series of selected criteria (for example, language, products selected for purchase) in order to improve the service provided to the user. The prior consent of the user is not required for the installation of these cookies (more information in the paragraph Cookies management below).

Profiling cookies Profiling cookies are designed to create profiles related to the user and are used to send advertising messages in line with the preferences expressed by the user when surfing the web.

The consent of the person concerned is required for the use of profiling cookies. According to provision no. 229 of 8 May 2014 the user must be able to authorize or deny consent to the installation of profiling cookies if they are present.

In the case of third party cookies, the site has no direct control over the individual cookies and cannot control them (it can neither directly install nor delete them). You can still manage these cookies through your browser settings (follow the instructions below), or through the sites indicated in the "Managing cookies" section.

The User is therefore invited to check on the website of the third party indicated below.

COOKIES INSTALLED ON THIS SITE Here is the list of cookies on the site

Cookie name	Purpose	Part One or Part Three	Web reference
ssr-caching	Indicates how the site was rendered	Third	Wix.com
Hs	Security	Third	Wix.com
svSession	The cookie is persistent and identifies unique visitors and tracks visitors sessions.	Third	Wix.com

DURATION OF COOKIES Cookies have a duration dictated by the expiration date (or a specific action such as closing the browser) set at the time of installation. Cookies can be:

- temporary or session cookies: these are used to store temporary information, allow you to link actions performed during a specific session and are removed from your computer when you close your browser;
- persistent cookies: these are used to store information, such as your name and password, so that you do not have to type them in again each time you visit a specific site. These remain stored on your computer even after you close your browser.

The so-called session cookies, once the connection to this website is terminated, are not stored. The computer systems used for this website use temporary cookies and permanent cookies.

COOKIES MANAGEMENT You can disable cookies on websites by downloading special software such as Ghostery (<https://www.ghostery.com>) for your browser and disabling the use of individual cookies. Or you can enable "anonymous browsing" mode - this is a feature that allows you to browse without leaving any trace of your browsing data in your browser. This function only allows you not to keep your browsing data in your browser.

Alternatively, you can disable/delete cookies by accessing your browser's configuration panel.

ACCEPTANCE AND WAIVER OF COOKIES

By continuing to browse this site, closing the information band or clicking on any part of the page or scrolling to highlight further content, you accept the Cookies Policy and cookies will be set and collected. If you do not accept cookies by leaving the site, any cookies already registered locally in your browser will remain registered there but will no longer be read or used by us until you accept the Policy. You will always have the possibility to remove such cookies at any time through the aforementioned methods.
